planous of the nest makers of are-tailed with the house of the house and setting and other musical celebrities.

ST. & SONS do not refer to artists who were in this country many years ago, or to certificates and testimonials given a least time since, as it is a well-known fact that such important improvements have been made in planous quite recently, that many makers whose instruments were justly considered to rank among the best years ago cannot by any means claim the same position at the present time.

makers whose instruments were justly considered to rank among the best years ago cannot by any means claim the same position at the present time.

We subjoin the following certificate, given within the hast damonths, by nearly all the leading and most prominent artists and musicians now residing in this cecutry:

The undersigned, having personally examined and practically tested the improvement in Groud Planes invented by H. STEINWAY, in which the covered strings are overstrung above those remaining, do bereby certify:

1. That as a result of the said improvement the voice of the Plane is greatly improved in quality, quantity, and power.

2. The sound by Steinway's improvement is much more even, least harsh, stronger, and much better prolonged than that realized in any other Plane with which we are acquainted.

3. The undersigned regard the improvement of Mr. Steinway as most novel, ingenious, and important Ne Plane of sindler construction has ever been known or used, so far as the undersigned known or believe.
